

Note to file regarding Mail Control No. 589812
The Tomayko group
37-28520-01
030-31697

In a request for additional information, I asked the licensee to confirm if they possessed sealed sources that did not fall under 10 CFR 35.65. In a letter dated March 10, 2016 responding to our request for additional information, the licensee stated "We do not have any sealed sources that fall under 10 CFR 35.65 nor do we intend to acquire any". Based on that statement and other responses in the application, it implied that they did not possess any 10 CFR 35.65 sources but did have other sources. I contacted Mr. Donald Ashton, Director, to determine if the answer was a typographical error or if they possessed sources that would need to be identified on the license. Mr. Ashton returned my call and left a voicemail and also replied by email stating that it was in fact a typographical error and that they DO NOT have any sealed sources that DO NOT fall under 10 CFR 35.65.
