

May 18, 2016

Mr. Gary Peters, Director  
Licensing and Regulatory Affairs  
AREVA Inc.  
3315 Old Forest Road  
Lynchburg, VA 24501

SUBJECT: ACCEPTANCE FOR REVIEW OF AREVA INC. TOPICAL REPORT  
ANP-10337P, "PWR FUEL ASSEMBLY STRUCTURAL RESPONSE TO  
EXTERNALLY APPLIED DYNAMIC EXCITATIONS" (TAC NO. MF6753)

Dear Mr. Peters

By letter dated August 31, 2015 (Agencywide Documents Access and Management System Accession Number ML15266A250), AREVA Inc. (AREVA) submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) ANP-10337P, "PWR [Pressurized Water Reactor] Fuel Assembly Structural Response to Externally Applied Dynamic Excitations." The NRC staff has performed an acceptance review of TR ANP-10337P. We have found that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by January 20, 2017, and issue its draft safety evaluation (SE) by May 5, 2017. This schedule information takes in consideration the NRC's current review priorities and available technical resources and may be subject to change. If modifications to these dates are deemed necessary, we will provide appropriate updates to this information. The NRC staff estimates that the review will require approximately 1000 staff hours including project management and contractor time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between AREVA Product Licensing Manager, Jerald Holm, and the NRC staff on April 25, 2016.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

As with all topical reports, the SE will be reviewed by the NRC's Office of the General Counsel (OGC) to determine whether it falls within the scope of the Congressional Review Act (CRA). During the course of this review, OGC considers whether any endorsement or acceptance of a TR by the NRC amounts to a rule as defined in the CRA. If this initial review concludes that the SE, with its accompanying TR, may be a rule, the NRC will forward the package to the Office of Management and Budget (OMB) for further review and consideration. Any review by OMB would impact the schedule for the issuance of the final SE.
