LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- X 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy to exercise discretion, were satisfied.

Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Hello Janine,

This is to acknowledge that I received your email yesterday and this will be filed in our NRC communications files. I will place a copy of our contract with SONGS in the files too along with the explanation that we are providing contract personnel to support their license activities at the site under their license. Normally if we are working on a site under our license we would have a signed MOU with the client and notify the NRC of our license activities 14 days prior to beginning.

Thank you for your time and if you have any further questions please contact me.

Best regards

Hi Don,

I am glad that we had a chance to speak today and clarify the activities that New World Environmental is performing at the SONGS site.

As I mentioned to you during our phone conversation, no violations were identified related to the March 8, 2016 NRC Inspection. The attached NRC Inspection Report (NRC Form 591M) documents the results of the inspection. This form does not require you to take any action and you are not required to sign it or return it. I do however request a courtesy email response from you acknowledging receipt.

Thank you and please let me know if you have any questions.

Regards,
