Chairman Burns,

I am asking that you disapprove SECY-15-0149. This is nothing more than another attack on Labor. Arbitration is the remedy we have available when management clearly abuses what they believe are their rights in the workplace. All too often personalities conflict and in the nuclear world if this should pass it will provide companies with the means needed to get rid of employees that they simply and for no other reason just don't like.

What is the NRC Staff afraid of? What is the real motive behind this? I'll tell you , for the companies to have absolute control and the employees to have no recourse if they are unjustly denied their access.

I am asking that you take this rule regarding access arbitration and put it where it belongs, in the shredder.

Thanks for your time
