NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

May 3, 2016

Ms. Kimberly Manzione, P.E.
Licensing Manager
Holtec International
Holtec Center
One Holtec Drive
Marlton, NJ 08053

SUBJECT: ISSUANCE OF CORRECTED APPENDIX A, TABLE 3-1 FOR AMENDMENT NO. 9, REVISION NO. 1 TO CERTIFICATE OF COMPLIANCE NO. 1014 FOR THE HOLTEC INTERNATIONAL HI-STORM 100 CASK SYSTEM (CAC NO. L24935)

Dear Ms. Manzione:

By letter dated March 21, 2016 (ADAMS Accession No. ML16056A553), the United States Nuclear Regulatory Commission (NRC) provided Revision No. 1 to Amendment No. 9 to the HI-STORM 100 Certificate of Compliance (CoC) No. 1014. A review by Holtec International (Holtec) determined an editorial error to Appendix A, Table 3-1, "MPC Cavity Drying Limits for all MPC Types." On Table 3-1, the row for "All Assemblies \leq 45,000," incorrectly referenced "Note 5" for the "MPC Heat Load (kW)" instead of "Note 6." Holtec identified this error in an email message to the NRC dated April 26, 2016 (ADAMS Accession No. ML16118A492).

The NRC staff has made the correction to Appendices A, Table 3-1, and this did not change any values or technical information provided in the March 21, 2016, submittal. The correction does not change the cask design, spent fuel contents, operating conditions, or certification basis of CoC No. 1014, Amendment No. 9, Revision No. 1. A corrected Appendix A, page 3.4-1 is enclosed. Please replace the Appendix A, page 3.4-1 provided in ADAMS Accession No. ML16056A553, with the enclosed.

If you have any questions, please contact me at (301) 415-6933.

Sincerely,

/RA/

John M. Goshen, P.E., Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards

Docket No.: 72-1014
CAC No.: L24935

Enclosure: As stated
