MESSAGE See accompanying documents.

NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to complete the review of your request to move your nuclear medicine department to a new location.

1. Thank you for the facility diagram. Unfortunately, some of the information at the edges of the facility diagram were "cut off" when the diagram was sent. Please reduce the size of the facility diagram and resent it so that the information on the edges are legible.
2. On the facility diagram, please specify the room number where radionuclides will be used or stored. OR If there are no room numbers, please state so.
3. If you are using "PET" radionuclides please identify the "quiet room", and its room number. Also please describe and additional handling equipment and state that you will not exceed the dose limits specified in 10 CFR 20.1301(public dose limits). OR If you are not using "PET" radionuclides, please state so.
4. Please specify the room numbers for the rooms adjacent to the rooms where radionuclides are used or stored. OR If there are no room numbers, please state so.
5. Please specify what is above and below the new room for the nuclear medicine department. For example, facility is only one story high, so there is a roof above the new room for nuclear medicine department. The new room for the nuclear medicine department is on a ground floor slab, so there is earth below the new room for the nuclear medicine department.

Please send a facsimile (630-515-1078) of your response to the above within 7 days and state, Response to Control 590361. Please include a cover letter on company letterhead, dated and signed (signed by an individual who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

From the desk of:

Bill Reichhold
