NUCLEAR REGULATORY COMMISSION
REGION III

2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

MAY 03 2016

Kenneth W. Wohlt, M.S.
Radiation Safety Officer
Wheeler Heart and Vascular Center
3800 S. National
Springfield, MO 65807

Dear Mr. Wohlt:

Enclosed is Amendment No. 27 to your NRC Material License No. 24-24332-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font, including the addition of ADAMS accession numbers for each document listed in Condition No. 14.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you have any questions concerning this amendment please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is 630-515-1078.

Please note that it was not clear to us whether it was your intention to add authorization for materials in 10 CFR 31.11 to your license, by virtue of having added Dr. Sharpe, in your letter dated March 14, 2016. There was no explicit or implied request to add this new authorization in Subitem Nos. 6 through 9.

If you do wish to add this authorization, please contact me to discuss the kinds of information needed to support such a request, in addition to reviewing NUREG 1556 Vol. 9, Rev. 2.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you.

This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture.

You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>.

We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

A handwritten signature in black ink that reads "Colleen Carol Casey". The signature is written in a cursive style with a large initial "C".

Colleen Carol Casey
