NRC REGULATORY ISSUE SUMMARY 2015-16
PLANNED LICENSING ACTION SUBMITTALS

In response to Nuclear Regulatory Commission (NRC) Regulatory Issue Summary 2015-16, Revision 1, "Planned Licensing Actions Submittals for All Power Reactor Licensees," Attachments 1 through 3 provide the requested information on proposed planned licensing action submittals for the next three calendar years for Millstone (MPS), North Anna (NAPS) and Surry (SPS) Power Stations. Neither DNC nor Dominion currently have power uprates planned in the next five years.

The information in the attachments is being voluntarily provided to assist the NRC in planning for the necessary resources during the budget process. Alterations to the planned licensing actions in Attachments 1 through 3 will be communicated to the appropriate NRC Project Managers as they occur.

If you have any questions concerning this information, please contact Michael Whitlock at (804) 273-3123.

Sincerely,

Mark D. Sartain
Vice President - Nuclear Engineering
