SUBJECT: TERMINATION OF QUALITY ASSURANCE PROGRAM APPROVAL FOR RADIOACTIVE MATERIAL PACKAGES NO. 0383, REVISION 8

Dear Mr. Gellrich:

As requested in the letter from Mr. Patrick R. Simpson to the US Nuclear Regulatory Commission (NRC) dated February 17, 2016 (ML16048A308), Quality Assurance Program Approval No. 0383, Revision 8, is hereby terminated. You are no longer authorized to procure, maintain, repair, or use radioactive material packagings under Approval No. 0383. As discussed in the US NRC's response letter dated April 4, 2016 (ML16095A332), your Approval was transferred to Approval No. 0008 before Approval No. 0383 was terminated. Therefore, your authorization to perform quality activities for radioactive material packages was maintained.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packagings should be made pursuant to 10 CFR 71.17(c)(3).

If you have any questions, please contact me at 301-415-7399 or Jeremy Tapp at 301-415-8047.

Sincerely,

/RA/
