Good Afternoon Tim: In addition, please note that the 1st part under Item 10. Radiation Safety Program – Operating and Emergency Procedures should be checked because this is a renewal application and you, as a licensee, should already have operating and emergency procedures established. Please note that the 2nd part, “operating and emergency procedures will be developed, implemented, and maintained.....November 2001” is the appropriate response for new applicants who do not have an existing operating and emergency procedures in place.

In addition, please expand the text of your operating and emergency procedures to include the redlined text for Item 10, as attached.

Please do not hesitate to contact me if I can provide further clarification or assistance.

Sincerely,

Ms. Jacqueline “Jackie” D. Cook

Subject: RE: RE: gauge renewal

Good Morning Tim: Thank you very much for your prompt response. You're so welcome! Please address the following for your renewal of your license and update the application and Appendix B accordingly.

1. The 3rd thing was under quantity column for Items 5 and 6, tell me the maximum number of gauges you want to be authorized.
2. In addition, on page 3 of the application, Appendix B, at the end of Items 5 and 6, check either the yes or no box [the appropriate response will be “no” since the quantity of gauges you possess will be less than the quantity required to submit financial assurance] for “financial assurance required and evidence of financial assurance provided”.
3. Please expand the text of your operating and emergency procedures to include the following text: “operating, emergency and security procedures described in the errata sheet to Appendix H of NUREG-1556, Vol. 1, Rev. 1.

Once you have updated your renewal application and Appendix B accordingly in response to the above, I will if you'd like me to review your renewal submittal again before finalizing your renewal application for review.

Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Ms. Jacqueline "Jackie" D. Cook

Subject: [External_Sender] RE: gauge renewal

Jackie,

Thank you very much for your assistance and for your great sense of humor. Please review attached document for the changes I made. I could have sworn there was a third thing that I was supposed to do but for the life of me I cannot for certain say what it was or if there really even was a third correction. ☺

Once I receive your final vote of approval I will submit hardcopies in the mail.

Thank you,

Tim Bentley
