SUBJECT: INFORMATION REQUEST TO SUPPORT UPCOMING TEMPORARY  
INSTRUCTION 191 INSPECTION AT PERRY NUCLEAR POWER PLANT

Dear Mr. Hamilton:

This letter is to request information to support our inspection of the Implementation of Mitigating Strategies and Spent Fuel Pool Instrumentation Orders and Emergency Preparedness Communications/Staffing/Multi-Unit Dose Assessment Plans beginning August 8, 2016, at your Perry Nuclear Power Plant. This inspection will be performed in accordance with the U.S. Nuclear Regulatory Commission (NRC) Temporary Instruction 2515/191.

In order to minimize the impact that the inspection has on the site and to ensure a productive inspection, we have enclosed a list of documents requested for the inspection. Please provide this information prior to July 20, 2016. It is important that all of these documents are up to date and complete in order to minimize the number of additional documents requested during the preparation and/or the on-site portions of the inspection. Insofar as possible, this information should be provided electronically to the lead inspector.

The lead inspector for this inspection is Dr. Stuart Sheldon. We understand that our primary contact for this inspection is Mr. David Lockwood of your organization. If there are any questions about the inspection or the material requested in the enclosure, please contact the lead inspector at 630-829-9727 or via e-mail at [Stuart.Sheldon@nrc.gov](mailto:Stuart.Sheldon@nrc.gov).
