Re: Additional Information for NRC License # 21-32740-01
Close Canton Location of Use

Dear Ms. Forster:

We have included the additional information needed to complete our amendment request to close our Canton Road location at:

7300 Canton Center Road
Canton, MI 48187

(1) confirming that the 7300 street address is an error where 7330 is the correct street number and no radioactive materials have been used at the 7300 location, and that the 7300 street address should be removed from the license;

Ms. Forster, there was a mistake on the original amendment request to close the Canton location. The 7300 address is the correct address of use for the location of radioactive materials. The 7330 address is the medical office building where the offices for Premier Cardiovascular are located. No radioactive materials were ever used/located in the office area.

(2) confirming that the submitted closeout surveys reflect the final closeout for the 7300 street address and that the 7300 street address should be removed from the license;

The submitted closeout surveys reflect the final closeout for the 7300 street address and the 7300 street address should be removed from the license.

(3) explaining that the submitted closeout information refers to an area of use only and the 7300 street address should be retained on the license. Note that the additional

15120 Michigan Avenue, Suite A
Dearborn, MI 48126
Phone: (313) 624-8417
Fax: (313) 357-7074

7330 Canton Center Rd., Suite 109
Canton, MI 48187
Phone (734) 414-1376
Fax (734) 386-8004

5400 Fort Steet, Suite 110
Trenton, MI 48183
Phone: (734) 301-3125
Fax: (734) 301-3325

information must be submitted via a dated letter signed and dated by a duly-authorized licensee management official; or

The submitted closeout surveys reflect the final closeout for the 7300 street address and the 7300 street address should be removed from the license.

(4) providing another explanation as to the 7330/7300 street address situation and current use status for each location.

As indicated above, the 7300 address is the address where the radioactive materials were located/used. The 7330 address is for office space only and no radioactive materials were ever located/used there.

If you have any questions or require additional information please contact our Medical Physics Consultant, Cari Dzanbazoff, at (734) 662-3197.

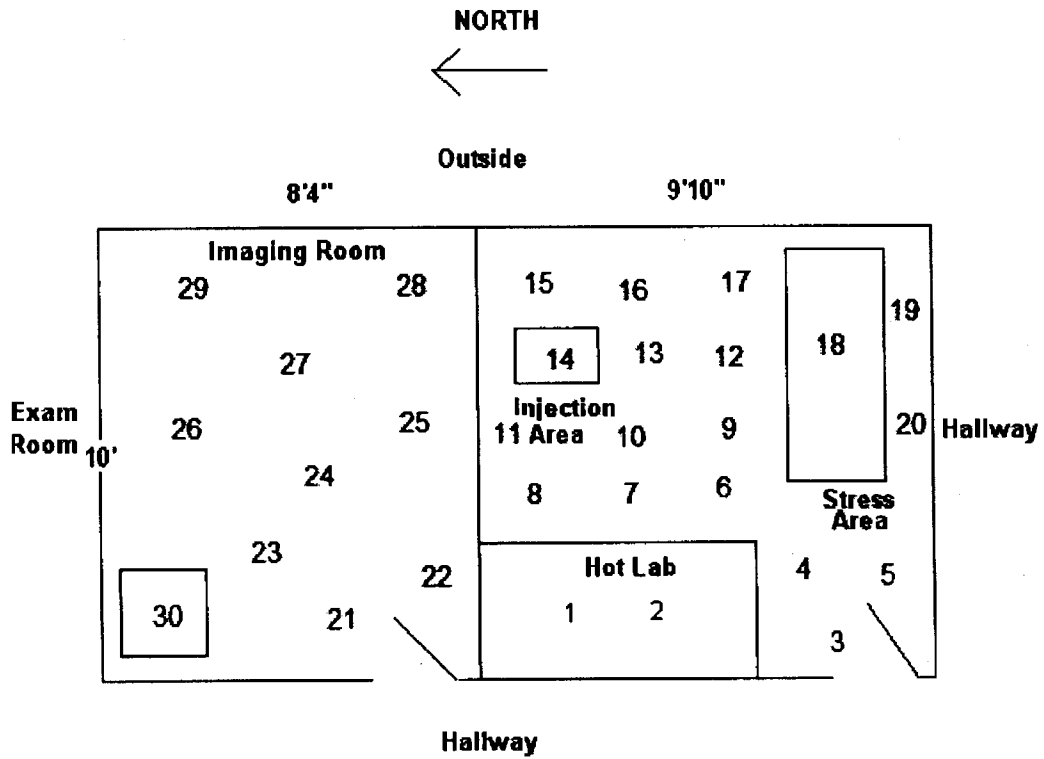

Sincerely,

Kathryn Filar, CES

Close-out Location:

**PREMIER CARDIOVASCULAR SPECIALISTS, P.C.
7300 CANTON CENTER ROAD
CANTON, MI 48487**

Date Performed: March 25, 2016

Performed By: Cari Dzanbazoff, Medical Physics Consultants Inc.

Comments: Equipment and sealed sources were properly transferred to the new Plymouth location.

Instruments:

Wipes for contamination performed with the following well counter:

Manufacturer: Capintec
Model Number: Captus 3000
Serial Number: 900271
Efficiency Factor: 2.5 dpm/cpm

Area survey performed with the following survey meter:

Manufacturer: Ludlum
Type: GM
Model Number: Model 3
Serial Number: 113520
Probe Model: Pancake
Calibration Date: 2/19/16

Battery check acceptable:	<u>YES</u>
Operational check acceptable:	<u>YES</u>
Constancy check acceptable:	<u>YES</u>
Check source value:	<u>3.0 mR/hr</u>

Radionuclides Used:

Unsealed

Tc-99m

Sealed

Cs-137, Co-57, Ba-133 (leak test attached)

Visual Check: The area was checked to ensure that all radioactive waste had been removed. No evidence of radioactive material was noted.

Radiation Level Survey: No area within the lab demonstrated radiation levels in excess of the background reading of 0.02 mR/hr.

Removable Contamination: No area within the lab demonstrated removable contamination in excess of 75 dpm/100 cm sq.

Sealed Sources: All sealed sources were properly transferred to the new Plymouth location.

Surveys, Wipes, and Diagrams are enclosed for review.

Forster, Sara
