Dear Ms. Henderson:

We are sending this letter to inform the NRC that no rulemaking is required for TCEQ to satisfy the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200 for RATS numbers 2011-2 (Licenses, Certifications, and Approvals for Materials Licensees) and 2015-1 (Domestic Licensing of Special Nuclear Material – Written Reports and Clarifying Amendments).

Attached is a crosswalk for these two RATS. The crosswalk identifies which rules are the sole responsibility of the Texas Department of State Health Services (DSHS), which we have discussed with DSHS.

If you have any questions, please feel free to contact me at 512-239-5308 or Bobby Janecka of my staff at 512-239-6415 or Bobby.Janecka@tceq.texas.gov.

Sincerely,

Charles Maguire, Division Director
Radioactive Materials Division
