DUKE POWER

April 14, 1994

U. S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Subject: Oconee Nuclear Station
Docket Nos. 50-269,-270,-287
Supplement to Proposed Technical Specification Amendment
Section 6.9.2

On February 23, 1993 with supplement dated May 4, 1993, Duke Power requested a Technical Specification revision to delete Table 4.4-1. This was subsequently approved and issued by the NRC on September 16, 1993. When this request was submitted it was overlooked that the Table of Contents needed to be revised. Due to this oversight the Table of Contents were not revised.

Attached is a marked up copy of the existing Table of Contents and a copy of the Table of Contents as it should appear to correctly reflect the previous Technical Specification revision. We ask that this editorial change be included with the revision requested to Section 6.9.2 submitted on March 23, 1994.

If you have any questions or need further information you may contact D. W. Dalton at (803) 885-3372.

Very truly yours,

J. W. Hampton
Site Vice President
