SUBJECT: GENERIC LETTER 83-28 SUPPLEMENTAL RESPONSE - OCONEE UNITS 1, 2,  
AND 3 (TAC NOS. M92023, M92024, AND M92025)

Dear Mr. Hampton:

By letter dated April 12, 1995, you requested NRC review and approval of a supplemental revised response to Subpart 1 of Section 2.2.1 of Generic Letter (GL) 83-28, Equipment Classification Program for all Safety-Related Components. In addition, you provided a clarification of what Duke Power Company understands to be the basis for the original licensing criteria for designating systems, structures and components (SSCs) as safety-related.

We have completed our review of your submittal. Our safety evaluation is enclosed. We find your revised response to GL 83-28, Section 2.2.1, Subpart 1, to be acceptable. In addition, we found no basis to contradict your understanding of the basis for the original licensing criteria for designating SSCs as safety-related. If you have questions regarding this matter, contact me at (301) 415-1495.

Sincerely,

Original signed by:
