Reply to Notice of Violation - REVISION

Dear Sir:

By letter dated September 15, 1992 the NRC issued a Notice of Violation as described in Inspection Report No. 50-269/92-19, 50-270/92-19, and 50-287/92-19. On October 15, 1992, Duke Power Company submitted a reply to the notice of violation. This letter is to inform you of a delay concerning a corrective action.

The Nuclear Procurement Engineering Program (NPEP) committee, which is composed of representatives from numerous divisions within the Nuclear Generation Department, has formed a subcommittee to review the purchase specifications and determine if revisions are required. Since recommendations being made by the subcommittee may not be specific to Oconee, a 90 day extension is required to complete the evaluation and implement possible revisions, as well as any necessary training. All other corrective actions are progressing on schedule.

If you have any questions, please contact Susan Perry at (803) 885-3300.

Very truly yours,

J. W. Hampton
