Docket Nos. 50-269, -270, -287
Inspection Report 50-269, -270, -287/93-23
Reply to Notice of Violation - Revision

Dear Sir:

By letter dated September 24, 1993 the NRC issued a Notice of Violation as described in Inspection Report No. 50-269, 270, 287/93-23. On October 25, 1993, Duke Power Company submitted a reply to the notice of violation.

This letter is to inform you of a change in a commitment completion date. In Example A of the violation, Duke committed to evaluate possible enhancements to the Post Maintenance Testing (PMT) program by June 30, 1994.

To aid in our review of the complete testing program, Duke requested an INPO Assist Visit in the areas of post maintenance testing and post modification testing. As a result of the December, 1993 visit, several areas for improvement were suggested (i.e. Administrative Processes, Preventive Maintenance Procedures, Post Modification Testing, Planner Activities, and Review of Completed Work). The following actions are planned to more fully evaluate the PMT program and will be completed by January 31, 1995:

A Quality Steering Team will be formed to review each of Duke's nuclear sites to determine how each site is implementing PMT.

A site team, lead by the engineering group, will be formed to review/evaluate the suggestions noted above.

If you have any questions, please contact Susan C. Perry at (803) 885-3300.

Very truly yours,

J. W. Hampton
