Gentlemen:

SUBJECT: FEMA OFFSITE EXERCISE REPORT FOR THE OCONEE NUCLEAR STATION

Please find enclosed a copy of the Federal Emergency Management Agency's (FEMA) Report for the offsite portion of the Oconee Nuclear Station Exercise of October 9-10, 1990, which was transmitted to the Nuclear Regulatory Commission (NRC) Region II on July 16, 1991.

As described in the enclosure, there were no deficiencies identified during this exercise. However, five areas requiring corrective actions were identified and several items were recommended for improvement.

We encourage you to assist the appropriate organizations in resolving the corrective actions and improvements identified by FEMA. Resolution of these items should be completed prior to the next full-scale emergency preparedness exercise.

We also encourage you to work closely with the State and counties in the development of a scenario for the next full-scale exercise that will effectively test the areas in which the above items were disclosed.

Your cooperation in this matter is appreciated.

Sincerely,

*MS*
