Docket Nos: 50-269,-270,-287; 50-369,-370; 50-413,-414

Gentlemen:

Recently, Duke Power Company announced a major reorganization effective November 1, 1991. The purpose of the reorganization is to focus our resources and talents on supporting operational excellence at our existing power plants. The Executive Vice President of this group will be Rick Priory. I will continue as the senior nuclear executive, we will have a vice president at each nuclear station site, and a technical support group in Charlotte.

Details of the organizational structure and personnel assignments are currently being developed. These decisions will be completed by November 1. We will then begin the orderly transition to the new organization.

In addition, activities are currently in progress to identify the necessary changes to such documents as technical specifications, our QA Topical, and other documents which require NRC review of revisions. Even though position titles and personnel assignments may change, we will continue to comply with our existing NRC approved documents and plans until such time as they have been appropriately revised. Our plans are to develop the revisions as promptly as possible and interface with the NRC staff in order to assure your thorough understanding and to facilitate timely processing of the changes.

I plan to discuss this reorganization further during our meeting with Jim Taylor and other NRC management on October 15, 1991 and will be prepared to answer any questions you may have.

Very truly yours,

A handwritten signature in cursive script, appearing to read "H. B. Tucker".

H. B. Tucker  
Senior Vice President, Nuclear
