Gentlemen:

SUBJECT: DUKE TOPICAL QUALITY ASSURANCE PROGRAM, AMENDMENT 15

We have completed our review of Amendment 15 to the Duke Topical Quality Assurance Program, DUKE-1-A dated July 20, 1992. This report provides the current quality assurance program description required by 10 CFR 50.54(a).

The topical report describes the Duke Power Company quality assurance program and is organized like the format of 10 CFR 50, Appendix B. Section 17.3 follows the format of NUREG-0800, Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants, Section 17.3. Amendment 15 was submitted due to a company re-organization. No changes or reductions were identified in program commitments.

Your response to our June 30, 1992 request for clarification resolved the questions we had. Our review of this material and the complete re-write indicates that your quality assurance program continues to satisfy 10 CFR 50, Appendix B requirements and is therefore acceptable.
