Docket Nos. 50-269, -270, -287

Dear Sir:

By letter dated February 8, 1983, the NRC issued Generic Letter 83-10 concerning resolution of TMI Action Plan Item II.K.3.5, reactor coolant pump trip criteria. My letter of July 29, 1983 stated that a submittal would be made by December 31, 1983. Certain analyses are still in progress. As such, a submittal justifying a reactor coolant pump manual trip setpoint cannot be made until the results of the analysis are available and reviewed. It is currently expected that a submittal can be made by March 30, 1984.

Very truly yours,

Hal B. Tucker
