Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. J. F. Stolz, Chief
Operating Reactors Branch No. 4

Subject: Oconee Nuclear Station
Docket Nos. 50-269, 270, 287

On February 12 and 13, 1985 members of the NRC Staff met with Duke Power Company (Duke) personnel at Oconee Nuclear Station to discuss NUREG 0737 Item III.D.3.4, "Control Room Habitability". The purpose of this meeting was to resolve certain open items and provide additional information to the NRC for its review. By a NRC letter dated April 15, 1985, the staff position concerning Oconee's Control Room habitability system was transmitted to Duke.

In addition to the staff position, the April 15, 1985 letter, requested Duke to submit a response to the NRC Staff position and the results of the unit 1 and 2 Control Room pressurization test. This response was requested to be submitted within two weeks after completion of the test, but no later than May 1, 1985.

Duke currently projects completing this test by May 31, 1985 and submitting the results for the NRC Staff's evaluation by June 14, 1985. Duke's response to the Staff's position will also be submitted along with the test results.

Very truly yours,

H.B. Tucker

Hal B. Tucker
