Attention: Mr. John F. Stolz, Chief
Operating Reactors Branch No. 4

Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

By letter dated January 20, 1984, Duke Power Company (Duke) committed to provide a Shift Technical Advisor (STA) program document which reflects the new requirements that had been provided in a NRC letter dated November 28, 1983. The STA program description for Oconee Nuclear Station was provided by my letter dated May 21, 1984.

During a June 21, 1984 conference call, your Staff requested additional information concerning Oconee's upgraded STA program. This information was provided by my letter dated January 18, 1985. In this letter, Duke Power Company committed to make any "necessary revisions to the Technical Specifications that will reflect the upgraded STA program". After a review of the Oconee Technical Specifications, it was determined that no revisions were necessary at this time.

Very truly yours,

Hal B. Tucker
