Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. J. F. Stolz, Chief
Operating Reactors Branch No. 4

Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

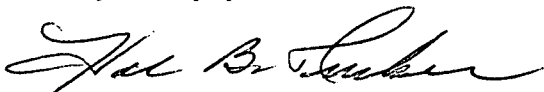

As you are aware, the Vital Area Analysis for Oconee Nuclear Station was conducted during the period of December 5-9, 1983 by personnel from Science Engineering Associates Inc. under contract from the NRC through Los Alamos National Laboratory (LANL). At some later date the Vital Area Analysis Report for Oconee was completed and forwarded through channels from Science Engineering Associates Inc. to the appropriate section of the NRC Staff.

Based on the scheduling of the forthcoming Regulatory Effectiveness Review of Oconee Nuclear Station to be conducted during the period of September 17-25, 1985, I would request the Vital Area Analysis Report and results be made available to Duke Power Company. If for some reason the report can not be sent to Duke Power Company at this time, then appropriate members of my staff will be available to come to Washington and evaluate the report in your Headquarters prior to the conduct of the Regulatory Effectiveness Review scheduled for September 1985.

Your attention to this matter is greatly appreciated.

If there are any questions or problems concerning this matter, please advise.

Very truly yours,

Hal B. Tucker
