Dear Mr. Labato:

This refers to your license amendment requests. Enclosed with this letter is the amended license. We combined the two Control numbers listed above. As stated in Condition 26 of the amended license, you may discharge liquid waste to your sanitary sewer in accordance with 10 CFR 20.2003 and no longer are required to monitor the discharges from the sewer system.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5093 or 5239, so that we can provide appropriate corrections and answers.

Thank you for your cooperation.

Sincerely,
