Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287
Safety and Performance Improvement Program (SPIP)
Implementation Schedule

Dear Mr. Varga:

By your letter dated April 29, 1988, the NRC Safety Evaluation Report (SER) and Supplement No. 1 to this report (SSER), NUREG-1231, on the Babcock and Wilcox Owners Group (BWOG) plant reassessment program was transmitted to Duke Power. The April 29, 1988 NRC letter also requested Duke to provide an implementation schedule by June 1, 1988.

By Mr. N. A. Rutherford's letter (OG-197) dated May 10, 1988, the BWOG submitted the latest Recommendation Tracking System (RTS) report to the NRC. The BWOG is using the RTS report as the vehicle to transmit the utility's status, plan, and schedule for implementation of the SPIP recommendations. Accordingly, Duke Power authorizes the BWOG to submit the RTS report to the NRC for information on Duke Power's behalf, since the Oconee Nuclear Station's specific information contained in the RTS report is provided by Duke Power.

Very truly yours,

Hal B. Tucker
