Subject: Request for return of Volume 1, Section 10 of Oconee Nuclear Station Second Ten Year Interval Plan, Rev. 5 containing Babcock and Wilcox proprietary calibration drawings.

Dear Mr. North:

In response to Duke Power Company's letter dated December 15, 1988 requesting retrieval of Volume 1, Section 10 of Oconee Nuclear Station Second Ten Year Interval Plan, Rev. 5, please find enclosed Volume 1 of that submittal, originally addressed to the Document Control Desk. The other recipients stated in your December 15, 1988 letter have been notified and advised to return or destroy Volume 1 due to the content of proprietary information. It is our assumption that Volume 1 will be resubmitted without the content of any Babcock and Wilcox proprietary material, in order for review and distribution of this material to be completed.

Sincerely yours,

Second Ten Year Interval ISI Plan

Gentlemen:

By my letter of July 5, 1988 I transmitted uncontrolled copies of the Oconee Nuclear Station Second Ten Year Interval Plan, Rev. 5 including ISI Class 1 and 2 boundary drawings and Unit 1 isometric drawings. As part of that submittal, Volume 1, Section 10 contained proprietary Babcock and Wilcox (B&W) calibration standard drawings, which are not necessary for NRC review. I requests that the NRC return all 5 copies of Volume 1, such that the subject drawings can be removed. I will then resubmit Volume 1.

Very truly yours,
