Docket Nos. 50-369, -370
Docket Nos. 50-413, -414
Offsite Dose Calculation Manual (ODCM)

I am providing to the NRC one controlled copy (copy number 50) of the current, up to date Duke Power ODCM for Oconee, McGuire and Catawba Nuclear Stations. In the past, controlled copies 1-10 were assigned to NRC. When the ODCM was revised, 10 copies of the revision were provided to the NRC in order to update their copies of this manual. It has been brought to my attention that the 10 copies assigned to the NRC have not been maintained, as such they are no longer current. Accordingly, it is requested that the 10 copies assigned to the NRC be either returned to Duke Power or destroyed (controlled copies 1-10) and the controlled copy 50 is provided as a replacement.

To assure the future revisions to the ODCM are properly implemented, controlled copy number 50 has been assigned to the NRC Oconee Project Manager. The individual filling that position will be responsible for updating the manual when revisions are made. Members of my staff have discussed this with the Oconee Project Manager (Len A. Wiens), who agreed that this was acceptable. Also note that controlled copy 50 of the Duke Power ODCM has been mailed directly to Mr. Len A. Wiens.

Very truly yours,

H. B. Tucker
