Subject: Oconee Nuclear Station
Docket Nos. 50-269,-270,-287
Generic Letter 89-04

Gentlemen:

By letter dated January 12, 1990 I provided justification regarding the schedule for the Oconee Nuclear Station (ONS) response to Generic Letter (GL) 89-04. In subsequent discussions with my staff, the Oconee NRC Project Manager has requested clarification concerning the treatment of GL 89-04 within the context of the overall upgrade to the Inservice Testing (IST) program at ONS. ONS has been and will continue to upgrade the IST program based on input from GL 89-04, GL 89-10, Information Notice 88-70, Bulletin 88-04, GL 88-14, and the Active Valve List Design Study. This revision process is an integrated upgrade of the IST program rather than individual treatment of each IST concern. In November 1990 I will forward the updated IST program and respond to GL 89-04.

Very truly yours,

Hal B. Tucker
