Re: **Millstone Nuclear Power Station License Amendment Application:
Spent Fuel Pool Rerack (Docket No. 50-423-LA)**

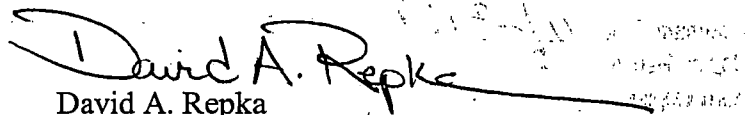

Dear Judge Bechoeffler:

In accordance with your request, I am providing one copy of the non-proprietary version of Northeast Nuclear Energy Company's license amendment application dated March 19, 1999, addressing the spent fuel pool rerack project. The non-proprietary version excludes a proprietary version of a report of Holtec International (Appendix 6), but includes Holtec's non-proprietary version of the Licensing Report (Attachment 5).

In addition, I am providing a copy of a supplemental filing, dated April 5, 1999, made with respect to a separate license amendment request. This filing transmitted a non-proprietary version of a Holtec thermal-hydraulic analysis that also supports the rerack proposal.

I am confident that this is responsive to your request.

Very truly yours,

David A. Repka
Counsel for Northeast Nuclear Energy Company
