Docket Nos. 50-269, -270, -287
Inspection Report 50-269, -270, -287/93-25
Revised Response to Notice of Violation

By letter dated February 11, 1994, the NRC issued a Notice of Violation as described in the subject Inspection Report. Our response was submitted in a letter dated May 12, 1994.

In our response to violation 'B', we committed to performing an evaluation of the usage of Belzona under cyclic loading and LOCA conditions. This commitment involved obtaining dynamic material property data which would be included in the evaluation. The material property testing is not scheduled for completion until the end of February 1995. Following completion of the testing, the test results will have to be included in the evaluation. Therefore, the completion of this commitment item needs to be extended to 5/12/95. This is the first extension of this commitment from the initial completion date of 12/16/94.

If you have any questions, please contact Michael Bailey at (803) 885-4390.

Very truly yours,

A handwritten signature in cursive script that reads "J. W. Hampton".
