Licensee Event Report 50-269/1999-01, Revision 00  
Problem Investigation Process No.: 0-099-0737

Gentlemen:

Pursuant to 10 CFR 50.73 Sections (a) (1) and (d), attached is Licensee Event Report 50-269/1999-01, Revision 00, concerning a single failure issue that may not meet the current licensing basis of the Emergency Feedwater (EFW) System. The EFW system design relies on alternate sources of emergency feedwater for some feedwater line break accidents. A NRC Staff letter dated February 24, 1999 indicated that this reliance was not approved in the current licensing basis.

This report is being submitted in accordance with 10 CFR 50.73 (a) (2) (ii) (B). This event is considered to be of no significance with respect to the health and safety of the public.

Very truly yours,

W. R. McCollum, Jr.
