Delay of NRC Commitment Item

Dear Sir:

By letter dated August 05, 1994 the NRC issued a Notice of Violation as described in Inspection Report No. 50-269/94-15, 50-270/94-15, and 50-287/94-15. By letter dated October 20, 1994, Duke responded to this Notice of Violation, indicating that the violation was acknowledged and that certain corrective actions would be taken. These corrective actions constituted commitments to the NRC. One of the corrective actions in Section 4 of the Violation Response was that "Pressure test procedures will be revised by January 5, 1995 ...". Duke has initiated this corrective action and determined that the complexity of these procedure changes warrants a delay in the completion date. Duke requests to delay completion of this commitment until 16 March 1995. This will still allow Duke to complete the procedure changes prior to the next outage without undue reallocation of resources. This commitment item delay was discussed with NRC Region II Inspector McKenzie Thomas per phonecon on December 15, 1994. If there are any further questions about this item, please contact David Nix at (803) 885-3634.

Very truly yours,

J. W. Hampton
