Good Morning,

I'm sorry I didn't get back to you yesterday about your request for a copy of the Gamma Knife license, I needed to get some clarification from a reviewer on whether I could send the license since it contains security information. Usually one would request a copy from the RSO, however, we realize that there are situations where one might not want to reveal why they wanted a copy – such as seeking employment elsewhere.

Please send a request in writing in a signed and dated letter – personal request, not company letterhead – and state the purpose for requesting a copy of the license. Once we receive the letter we will send you a copy of the license. You can scan a copy of the letter and email it to me at this address.

Thank you,
