Re: Radioactive materials license amendment
License #: 06-30624-01

Dear Ms. Weidner:

Please accept this letter as a formal request to amend the above referenced radioactive materials license in regards to the transfer of ownership of MNI to inviCRO LLC, per CFR 30.34 (b)(1).

In accordance to the Appendix F of the regulation, please find below the information needed for the transfer.

1. Molecular NeuroImaging ("MNI") was acquired by inviCRO LLC on February 5, 2016. All MNI LLC ownership units held by MNI Principals Ken Marek and John Seibyl ("MNI Sellers") were transferred to inviCRO in return for a combination of cash and ownership interest in inviCRO by the MNI Sellers, and MNI became a wholly owned subsidiary of inviCRO LLC. Subsequent to the sale, MNI Sellers own a minority interest position in inviCRO, LLC. Molecular NeuroImaging, LLC continues to use the MNI name.
2. No changes in the personnel or duties related to the licenses program will be implemented.
3. The organization, location, facilities, equipment and procedures related to the licensed program will remain the same and at the same location of 60 Temple Street, New Haven, CT 06510.
4. The surveillance program (surveys, wipe tests, quality control) has not changed and is reflective in our standard operating procedures. Please see below for a brief description of the current program.
MNI has a full Radiation Safety Program in place which includes a description of our employee safety program (ALARA), employee training program and laboratory safety procedures. These programs are further details in company standard operating procedures and working instruction documents. A high level summary of our programs would include:
 - a. Daily area surveys, weekly wipe testing, wipe surveys in both the clinic and chemistry laboratories as defined.

REC RG 1 05 27 16 AM 10 23

591031
NRC/RGNI MATERIALS-002

- b. Calibration of survey instruments including radiation survey meters and dose calibrators.
 - c. RSO, or designee, authorization for ordering of and receipt of radioactive materials
 - d. ALARA procedures to insure employee safety via the monitoring of employee radiation exposure through individually assigned dosimetry badges (film and ring). Additionally, thyroid counts of employees working with iodine are monitored as well.
5. There will not be any decommissioning of the facility or assets due to this transfer of ownership and therefore there is not a necessity to transfer documentation to the NRC or the new owner.
 6. The transferee, inviCRO, LLC, confirms that they will abide by all constraints, conditions, requirements, and commitments of the transferor.

The contact information for the site will continue as John Seibyl, MD in the capacity of Radiation Safety Officer. He can be reached at 203-401-4381 or jseibyl@mnimaging.com

Kindly review this amendment request and contact me directly at jseibyl@mnimaging.com or (203) 401-4381 if you have any questions or concerns.

Thank you for your assistance regarding this matter.

Sincerely,

A handwritten signature in black ink that reads "J Seibyl, MD". The signature is written in a cursive style with a large initial "J" and "S".

John Seibyl, MD
MNI Managing Director & Radiation Safety Officer

ACKNOWLEDGEMENT - RECEIPT OF CORRESPONDENCE

Name and Address of Applicant and/or Licensee Molecular NeuroImaging, LLC ATTN: John P. Seibyl, M.D., General Partner 60 Temple Street 8th Floor New Haven, CT 06510	Date June 6, 2016
	License Number(s) 06-30624-01
	Mail Control Number(s) 591031
	Licensing and/or Technical Reviewer or Branch Shawn Seeley

This is to acknowledge receipt of your: Letter and/or Application Dated: 05/24/2016

The initial processing, which included an administrative review, has been performed.
 Amendment Termination New License Renewal

There were no administrative omissions identified during our initial review.

This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

The following administrative omissions have been identified:

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
