Dear Joe,

During the meeting today, Sushil Birla asked for some perspectives on what is seen as policy issues affecting SRM-SECY-93-087 and what are some other issues that could be addressed without a policy change. I have attached document markups that will help illustrate the two areas where changes should be made. The notes suggest where updates to SRM-SECY-93-087 would be helpful to reinforce the needed improvements. The notes for BTP 7-19 R6 point to the problem area and suggest the changes that are needed. I have also included annotated copies of prior version of BTP 7-19 to show where significant departures were introduced.
