Subject: Oconee Nuclear Site
Docket Nos. 50-269, -270, -287
Response to Enforcement Conference Summary, NRC
Inspection Report 93-29 Dated November 30, 1993

Gentleman:

The referenced Enforcement Conference summary requested that Oconee provide a written response to three questions related to the identification, prioritization, correction, and scheduling of problems resulting from the Design Basis Documentation (DBD) review evaluations. The DBD review and the Problem Investigation Process (PIP) are common programs at all three of the Duke sites. In an effort to ensure consistent application of these two programs at the three sites, additional time is needed to evaluate our response. The response to the three questions mentioned above will be submitted by January 30, 1994. If you have any questions concerning this additional time please contact Mark E. Patrick at (803) 885-3292.

Very truly yours,

J. W. Hampton
