**DUKE POWER**

June 23, 1994

U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555  
Attention: Document Control Desk

Subject: Oconee Nuclear Station, Units 1, 2 and 3  
Docket Numbers 50-269, -270 and -287  
Generic Letter 92-01, Revision 1; Verification of Data  
Base Entries (TAC Nos. M837348, M83735 and M83736)

By letter dated May 25, 1994, the NRC forwarded a set of data to be used in the Reactor Vessel Integrity Database, and requested that Duke review the data for accuracy.

B&W has prepared a generic response to GL 92-01, Revision 1, to be referenced by members of the B&W Owners Group Reactor Vessel Working Group in their response to the generic letter. This report, BAW-2222, states that analyses presented in equivalent margin topical reports BAW-2178PA and BAW-2192PA are applicable to and are bounding for Oconee Units 1, 2, and 3. B&W submitted this report on behalf of the members of the Working Group by letter dated June 23, 1994. BAW-2222 contains Duke Power's response to the NRC's May 25, 1994 GL 92-01, Revision 1 closeout letter for the Oconee units.

If you have any questions, please call Scott Gewehr at (704) 382-7581.

Very truly yours,

M. S. Tuckman
