Docket Numbers 50-369 and -370
Catawba Nuclear Station
Docket Numbers 50-413 and -414
Use by Duke Power Company of TACO3
(TAC Nos. M89548 and M89549)

By letter dated May 4, 1994, Duke Power Company requested approval for the use of B&W Fuel Company's TACO3 code (BAW-10162P-A), as well as BWFC's Fuel Rod Gas Pressure Criterion (BAW-10183P). This approval is to be based on the NRC's audit of appropriate supporting documentation, which was described in the May 4, 1994 letter. By letter dated June 20, 1994, the NRC staff requested that Duke inform the staff when that documentation would be available.

The purpose of this letter is to inform you that the documentation supporting Duke's application of these methodologies will be completed and available for audit by September 19, 1994.

If you would like to discuss scheduling an audit of this information, please call Scott Gewehr at (704) 382-7581.

Very truly yours,

M. S. Tuckman
