SUBJECT: REQUEST FOR ADDITIONAL INFORMATION RELATED TO U.S. NUCLEAR  
REGULATORY COMMISSION INSPECTION REPORT NO. 99901377/2012-201,  
NOTICE OF NONCONFORMANCES 99901377/2012-201-02 and  
99901377/2012-201-03

Dear Mr. Miller:

The U.S. Nuclear Regulatory Commission (NRC) is requesting additional information related to Notice of Nonconformance (NON) 99901377/2012-201-02 and NON 99901377/2012-201-03 as documented in the NRC inspection report (IR) 99901377/2012-201. The NONs are associated with the AP1000 inspections, tests, analyses and acceptance criteria (ITAAC) related inspection findings. The NRC plans to close these ITAAC related inspection findings, however, in order to provide closure, the NRC needs objective evidence to verify the adequacy and effectiveness of corrective and preventive action taken as proposed in your letter dated November 30, 2012.

Specifically, please provide documents which includes but not limited to: corrective action request nos. 2032, 2033, and 2034; revised commercial-grade item (CGI) evaluations: MA22004, MA21723, MA24945, MA24946 and MA22989; engineering operating procedures (EOPs) 3140 and 8185; revised CGI dedication plan - D8740S and associated training records.

Should any of the documents contain proprietary information, please provide two copies, one redacted copy that will be posted on the NRC ADAMS website for public access and second copy with sections marked to be redacted for NRC review. Please provide the information within 30 days of this notification and address the letter to Mr. Richard P. McIntyre.

Please contact Mr. Raju Patel at (301) 415-3511 or via electronic mail at [Raju.Patel@nrc.gov](mailto:Raju.Patel@nrc.gov), if you have any questions or need assistance regarding this matter.

Sincerely,
