Mr. James P. O'Reilly, Director
U. S. Nuclear Regulatory Commission
Region II
101 Marietta Street, Suite 3100
Atlanta, Georgia 30303

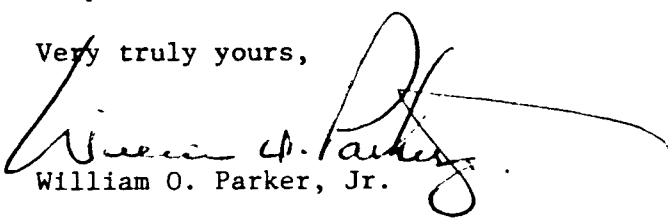

RE: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Mr. O'Reilly:

On September 21, 1978, a meeting was held in Charlotte with Mr. F. Jape, NRC/RII to discuss Duke Power's intended response to OIE Circular 78-08.

In this regard, Duke Power Company has established a program to address the concern contained in this circular. It is planned that by November 15, 1978 a list will be developed that will include all equipment inside containment which requires environmental qualification data. It is also expected that by April 16, 1979, all the required qualification data will have been assembled and a review of the adequacy of the qualification of each piece of equipment will have been completed.

Very truly yours,

William O. Parker, Jr.
