Duke Power Company

✓ATTN: Mr. H. B. Tucker, Vice President
Nuclear Production Department
422 South Church Street
Charlotte, NC 28242

Gentlemen:

SUBJECT: INSPECTION REPORT NOS. 50-269/87-16, 50-270/87-16 AND 50-287/87-16

This refers to the NRC inspection conducted by J. C. Bryant on April 16 - April 28, 1987. The inspection included a review of activities authorized for your Oconee facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations, described in the enclosed Inspection Report are under consideration for escalated enforcement. Accordingly, no Notice of this Violation is being issued at this time for these violations, and no response is required. However, please be advised that the number and characterization of violations described in the enclosed Inspection Report may change as a result of further NRC review. You will be advised by separate correspondence of the results of our deliberations on this matter. Additionally, an enforcement conference has been scheduled for May 13, 1987, in the Region II office.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
