Mr. Robert W. Reid  
Operating Reactors Branch No. 4  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Reid:

This is to confirm my previous conversation with Mr. Morton Fairtile in which I advised him that DOE's funding of the extended fuel burnup irradiation at Duke Power's Oconee Plant does not commit DOE to fund any future such irradiations or restrict any future alternatives for the LWR fuel cycle. Consequently, an environmental review of possible future DOE funded extended fuel burnup work and widespread utilization of the process is not required at this time.

Sincerely,

Peter M. Lang, Acting Assistant Director  
for Light Water Reactor Development  
Division of Nuclear Power Development
