03012630/2016002, DEPARTMENT OF THE ARMY, REDSTONE ARSENAL;
ANNISTON ARMY DEPOT; AND LETTERKENNY ARMY DEPOT; AND NOTICE
OF VIOLATION

Dear Dr. Zhu:

On November 18, 2015, February 24, 2016, March 23, 2016, and continuing with an in-office review until June 15, 2016, Scott Wilson of this office conducted a safety inspection at the above address and at the Letterkenny Army Depot in Chambersburg, Pennsylvania, and the Anniston Army Depot in Anniston, Alabama. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with you and David Walsh of your organization at the conclusion of the inspection on June 15, 2016, via telephone.

Based on the results of this inspection and in accordance with the NRC Enforcement Policy, the NRC has determined that two Severity Level IV violations of NRC requirements occurred. The violations are evaluated in accordance with the NRC Enforcement Policy. The current Enforcement Policy is included on the NRC's Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

The violations are cited in the Notice of Violation (Notice), provided as Enclosure 1 to this letter. The violations are cited because they were identified by the NRC. Enclosure 2 provides a determination of severity level and a description of the corrective actions taken by the Army TMDE Activity to address the violations.

**Enclosures contain Sensitive Unclassified Non-Safeguards Information.
Upon separation, this cover letter is decontrolled.**

In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.
