SUBJECT: WITHDRAWAL OF A REQUEST FOR EXEMPTION FROM ACCESS
AUTHORIZATION REQUIREMENTS FOR CLASSIFIED INFORMATION
(COST ACTIVITY CODE NO. L34337)

Dear Mr. Thyne:

By letter dated November 11, 2015 (LES-15-00198-NRC), Louisiana Energy Services, LLC dba URENCO USA (UUSA), requested the U.S. Nuclear Regulatory Commission (NRC) review and approval for an exemption to the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 25.33 (Agencywide Document Access and Management System [ADAMS] Accession No. ML15320A472, non-public). The original request was supplemented by a response to an NRC request for additional information dated December 10, 2015 (ML15337A217).

The NRC participated in a follow-up phone call on April 18, 2016, with UUSA Licensing. The purpose was to clarify the process for clearance reactivation, and give assurances that NRC will strive to minimize the delay in re-issuing access authorizations to those individuals whose access has been suspended for the sole reason of separation from the site for greater than 90 days.

In a letter dated April 27, 2016 (ML16126A198), UUSA requested withdrawal of the November 11, 2015, exemption request. In response to this request, the staff has suspended activity and the Cost Activity Code associated with this activity (L34337) will be closed.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
