Re: North Anna Power Station Unit 3 – Combined License Application Review
Caroline, Hanover, King William, Louisa, and Spotsylvania Counties, VA
DHR File No. 2000-1210

Dear Ms. Dixon-Herrity:

We have received your notification that the Nuclear Regulatory Commission (NRC) will not be preparing a supplemental environmental impact statement based on Dominion Virginia Power's change in reactor design and that the 2010 final environmental impact statement remains valid. By this letter, we confirm that the February 3, 2009 finding of *no adverse effect* also remains valid provided that the commitments memorialized in our October 5, 2011 correspondence to Dominion are honored. It is our opinion that Section 106 consultation is complete.

Thank you for keeping our office up-to-date on the specifics of this project and for confirming the results of prior consultation. If you have any questions regarding these comments or our review of this project, please do not hesitate to contact me at roger.kirchen@dhr.virginia.gov.

Sincerely,

Roger W. Kirchen, Director
Review and Compliance Division
