**Subject:** Form for License Amendment for Change of RSO - Docket Number: 3038246

**Importance:** High

Docket Number: 3038246  
License Number: 19-31402-01  
Licensee Name: AEROSOL MONITORING & ANALYSIS, INC  
Program Code 03122 - Measuring Systems Analytical Instruments

Mr. Coco,  
Per our phone conversation today, here is the link to the NRC 313 form to request an amendment to your license for a change in RSO. It does not cost anything for an amendment.

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313.pdf>

Here is a link to NUREG 1556 Vol 7 for assistance in filling out the form for your license type (see section 8.7, page 8-14 for RSO qualifications).

Please submit the amendment as soon as possible as it can take up to 90-days to complete once received. Ideally, the change shouldn't happen until after you received the amended license.

Please call if you have questions.

Sincerely  
Jim

## 8.7 ITEM 7: INDIVIDUAL(S) RESPONSIBLE FOR RADIATION SAFETY PROGRAM AND THEIR TRAINING AND EXPERIENCE

### 8.7.1 RADIATION SAFETY OFFICER (RSO)

**Regulations:** 10 CFR 30.33(a)(3).

**Criteria:** RSOs must have training and specific experience, with the types and quantities of licensed material to be authorized on the license.

**Discussion:** The person responsible for implementing the radiation protection program is called the Radiation Safety Officer, or RSO. This individual may also be called the Radiation Protection Officer (RPO). The RSO needs independent authority to stop operations that he or she considers unsafe. He or she must have sufficient time and commitment from management to fulfill certain duties and responsibilities to ensure that radioactive materials are used in a safe manner. Typical RSO duties are illustrated in Figure 8.4 and described in Appendix I. NRC requires the name of the RSO on the license to ensure that licensee management has identified a responsible, qualified person and that the named individual knows of his or her designation as RSO.

**Figure 8.4 RSO Responsibilities.** *Typical duties and responsibilities of RSOs.*
