MEMORANDUM TO: Kevin Hsueh, Chief
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

FROM: Joseph J. Holonich, Senior Project Manager */RA/*
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF JUNE 20, 2016, MEETING ON TSTF-505, "PROVIDE
RISK-INFORMED EXTENDED COMPLETION TIMES - RITSTF
INITIATIVE 4B."

On June 20, 2016, U.S. Nuclear Regulatory Commission (NRC) staff met with representatives from the Nuclear Energy Institute (NEI). The purpose of the meeting was to discuss the NRC staff and NEI perspectives on TSTF-505, "Provide Risk-Informed Extended Completion Times - RITSTF Initiative 4B." Information related to the meeting including presentations and the attendees list can be found in the Agencywide Documents Access and Management System package accession number ML16147A016.

Throughout the meeting, the NRC staff and NEI representatives discussed the information contained in their respective presentations. A series of discussions were held to provide clarifications of the information being presented. No regulatory positions were reached during the meeting.

It was proposed by NEI that the forthcoming response to request for additional information for the Vogtle Electric Generating Plant would be used as a prototype for a tiered approach to address Technical Specifications Loss of Function conditions. It would be reviewed but staff cautioned the industry that it could impact the schedule.

The single action from the meeting was to continue the development of the Vogtle submission.

Project No. 689
