To: Gary Fischer
Radiation Safety Officer
VEGA Americas, Inc.

Subj: Delegation of Authority

You have been appointed Radiation Safety Officer and are responsible for ensuring the safe and secure use of radiation. You are responsible for managing the Radiation Protection Program, identifying radiation protection problems, initiating, recommending, or providing corrective actions, verifying implementation of corrective actions, stopping unsafe activities, and ensuring compliance with regulations.

You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the U.S. Nuclear Regulatory Commission at any time. Your assignment as Radiation Safety Officer for VEGA Americas is your primary function.

Mr. Dallman, as discussed in our telephone conversation today, please see the attached sample of a delegation of authority. Feel free to use the sample or craft one as you see fit as long as it encompasses the information on the draft. Please email the completed delegation of authority to me with a signed and dated cover letter. In the meantime I will find out if there has been a policy change regarding alternate RSO's being listed on the license.

Thank you.
