On October 27, 2010, Toshiba submitted an application (Reference 1) to renew the 10 CFR Part 52 Advanced Boiling Water Reactor (ABWR) design certification rule issued in May 1997. The NRC accepted the application for docketing (Reference 2). Toshiba submitted Revision 1 to the Design Certification renewal application by letter dated June 22, 2012 (Reference 3)

By letter dated April 29, 2015 (Reference 4) the NRC issued Request for Additional Information Letter. By letter dated May 25, 2015 (Reference 5) Toshiba responded to the RAI stating that Toshiba's resource focus at this time was on supporting the safe restart of the Japanese nuclear power plants and requesting postponement of further review of the application until July 1, 2016. In the letter dated December 1, 2015 (Reference 6), the NRC accepted the Toshiba's request to postpone the NRC review with the acknowledgement of the unique circumstances in Japan. By this letter, Toshiba hereby withdraws the application to renew the ABWR Design Certification, considering the Toshiba's resource focus in Japan.

Please contact Mr. Jim Powers, Vice President - Engineering, US ABWR Projects & Technologies, Toshiba America Nuclear Energy Corporation ("TANE") at (704) 548-7910 if you have any questions regarding this letter. TANE is a wholly owned U.S. subsidiary of Toshiba. For convenience, Toshiba has authorized TANE to communicate with the NRC with respect to this matter.

Sincerely,

Mamoru Hatazawa
